National Elevator Cab & Door Corporation U.S. Application No. 10/748,440 Filing Date: December 30, 2003

Claim Listing

1. (Original) An elevator cab construction for increasing interior cab size of elevator

cab including:

(a) shell panels forming the interior walls of the cab with a ceiling and platform.

(b) stiffeners on the interior of said shell panels to provide suitable support,

(c) vertical corner trim stiffeners in the corners of the cab supporting said shell

panel,

(d) decorative panels mounted on said shell panels on the interior of said cab and

mounted between said stiffeners.

2. (Original) The elevator cab of claim 1 wherein said shell panels have openings to

the elevator shaft to provide ventilation through said stiffeners.

3. (Original) The elevator cab of claim 2 wherein said stiffeners are vertical and

separate strips of stiff material attached vertically to said shell panels.

4. (Original) The elevator cab of claim 3 wherein said decorative panels are

approximately the same thickness as said vertical stiffeners and extend inwardly from said

shell panels.

2

National Elevator Cab & Door Corporation U.S. Application No. 10/748,440

Filing Date: December 30, 2003

5. (Original) The elevator cab of claim 4 wherein said vertical stiffeners are channel-

shaped.

6. (Original) The elevator cab of claim 5 wherein said shell panels are attached to

said platform by a base section and to the ceiling by a transom riser section offset from

the plane of said shell panels.

7. (Previously presented) An elevator cab construction for increasing the interior cab

size of elevator cab including a platform and a ceiling

(a) shell panels forming the interior walls of said elevator cab attached to said

ceiling and platform by a base and transom which base and transom are both channel-

shaped and offset outwardly from the vertical plane of said shell panels toward the

elevator interior,

(b) vertical hat-shaped interior stiffeners formed on said shell panels from said

panel material to provide stiffening,

(c) vertical corner trip stiffeners in the corners of the cab to support said shell

panels,

(d) decorative panels mounted on said shell panels on the interior of said cab

between said vertical stiffeners.
